Dutch (B1)
French (A2)

Hola! I am a creative designer with a passion for aesthetics, driven by technology and human-centered design. After living in the Netherlands for 4 years, I have learned to collaborate in international and interdisciplinary teams. I approach challenges by bringing curiosity, creativity, and attention to detail. I truly enjoy listening, learning, and making ideas come to life.

Experience

2023 - 2024

aiCall

Co-Founder

Startup developing AI voice agents for customer service. Designed brand's visual identity, website and social media content; coordinated operations and client communications. Represented the startup at Slush Helsinki, connecting with potential investors and partners.

2022 - 2025

Design Lab

Innovation Designer (DreamTeamer)

Multidisciplinary projects in makerspace & innovation hub with external partners (e.g. Dutch Police). Interactive prototypes and installations showcased at Dutch Design Week. Delivered co-creation, design thinking & prototyping workshops. Front-desk support assisting visitors.

2021 - Present

Interaction Lab &
Plathion & freenalce

Graphic Designer

Produced marketing materials, motion graphics, and digital campaigns to enhance brand visibility.

2020 - Present

IMM formación &
CEOE-CEPYME
